## Profile

Frontend Web Developer adept in all stages of advanced web development. Knowledgeable in user interface, developing and debugging processes. Bringing forth expertise in design, development and maintenance of web systems. Equipped with a diverse and promising skill-set. Proficient in an assortment of technologies, including SCSS/SASS, JS/jQuery, React.js/Next.js, Typescript <3, Angular, Node, Umbraco, Drupal, WordPress. Able to effectively self-manage during independent projects, as well as collaborate in a team setting. Very passionate about working with new technologies.

## Employment History

### Junior Frontend Developer, Klevret LTD

Nov 2020 — May 2021   ⦿ Blagoevgrad

- Worked as a productive and positive team member to design, code, test, report, and debug operations.
- Worked on several CMS Websites doing the frontend SCSS/SASS, JS/jQuery architecture, workflow and help to enforce best accessibility, cross-browser and responsive design practices.
- Worked outsourced to foreign companies on React projects.
- Managed front-end development in the company's Internal System (React, Redux, TS, MaterialUI), which was used to track employees and mainly help HRs with their work by generating CVs based on experience and technologies that an employee has, managing off days and so on. Employees are able to log time on the project they are working on and all that was connected with Azure DevOps API.
- Maintained several CMS Websites using mainly Umbraco, WordPress and Drupal.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Worked to assess competing websites in regards to content, look, and feel.
- Evaluated and became knowledgeable in new standards, technologies, and trends in website development.
- LinkedIn

### Frontend Developer, Devasoft

May 2021 — Aug 2021   ⦿ Dupnitsa

- Worked on a Cloud Provider platform working on the main clientside. Using React and Bootstrap mainly.
- Built an admin panel for creating marketplace apps which show on the clientside from scratch. Using React, Redux, Bootstrap.
- LinkedIn

## Contributor, Daritleska Platforma (podkrepi.bg)

Nov 2020 — May 2021    ⚲ Sofia

This is a platform initiated by the Bulgarian IT community. There is a live information site of the platform here podkrepi.bg. This will be donation platform where ones who need help will be able to post campaigns and people can donate.

- Helped with the Frontend (React/Next, TS, MaterialUI) Development of the info site, the platform although is still in very early stage.
- Learned a many new things while working on the platform and I will continue to contribute when I can
